Jakarta, Indonesia

With a degree in Informatics Engineering from PLN Institute of Technology, I am a 24-year-old software developer with over two years of experience. Passionate and quick to learn, I excel both individually and in teams, and am eager to contribute my skills to achieve your company's goals and success.

Education Level

Insitut Teknologi PLN - Jakarta, Indonesia   Nov 2018 - Nov 2022
Bachelor of Teknik Informatika, 3.66/4.00

Digital Talent Scholarship x Kominfo - Remote   Oct 2022 - Dec 2022

Work Experiences

PT.Realta Chakradharma - Jakarta Pusat   May 2023 - Present
Software Developer

At Realta Chakradarma, I work on the BIMASAKTI11 project, a web application for managing properties like apartments and malls. My responsibilities include developing reporting features, managing core data and settings, overseeing transaction processes, handling data retrieval and queries, and supervising batch processing and scheduling.

- stacks: C#, SQL Server, Blazor, WASM, Docker, Kubernetes, .Net Core

Project Hotel Realta (module master) - Sentul   Nov 2022 - Apr 2023
Fullstack Developer

Hotel Realta is a collaborative project with several modules. I manage the master module, which integrates and coordinates the various sub-modules to ensure the project runs smoothly and efficiently.

- stacks: C#, SQL Server, Blazor, WASM, Docker

PT.Bifarma Adiluhung (KALBE) - Jakarta Timur   Aug 2021 - Jan 2022
Graphic Designer

- Poster, banner, flyer design for social media
- Edit video for product branding
- Responsible for making the genme.id website in terms of design and UI/UX
